Some differences occur in parts, as the manufacturer may change the design slightly during the production. Due to this and the manufacturing tolerances, or possible wear, sometimes a replacement part may appear to fit, but not function as designed without proper fitting by a gunsmith.

ALL PARTS ARE SOLD WITH THE UNDERSTANDING THAT THEY WILL BE SAFETY CHECKED AND / OR FITTED BY A COMPETENT, QUALIFIED GUNSMITH.

Prices are subject to change without notice. Sorry, but we now have a \$10 minimum order
